The Weaponization Of Trade The

Weaponization is the transformation of a benign instrument into a means of aggression and, increasingly, we have observed states wielding trade coercively. In short, through language, the character of trade has changed from an implicit tool of coercion to the explicit means through which foreign policy objectives are achieved.

The weaponisation of trade - Deutsche Bank

It's The Weaponization of Trade by Rebecca Harding and Jack Harding (respectively a trade economist and a security researcher), and it couldn't be more timely. The book looks at the shift from trade as an issue debated squarely in the economic domain to trade as a tool of politics and international relations.

The weaponization of trade | The Enlightened Economist

Trade is being weaponized - and this isn't good. As politicians on both sides of the Atlantic raise the stakes, trade is increasingly a tool of coercion to achieve strategic influence. This book looks at the risks for us all as trade becomes an instrument of foreign policy, and shows how politicians could turn things around.
