Here's the problem: the more you avoid your negative thoughts, the bigger they grow, and the more you reinforce your tendencies to ignore negativity. But we aren't only happy humans. We're sad. Angry. Fearful. Anxious. "I will oftentimes fake a smile right before I have to make a phone call to toxic family members, and even laugh through rude statements that they say—so as to not ...

Toxic Positivity: Why Positive Vibes are Ruining You

Don't just ignore the issue. If he comes back, pretending like nothing's wrong, do not ignore it. Go back to the initial problem that you were talking about. Don't just let it slide because you brought it up for a reason. Play that scenario out to the end. If you were dating and you're the one acting needy, acting a bit too clingy or ...

The TISAS ZIG M1911 A1 is a budget handgun that gets more things right than most other 1911 handguns, but you get what you pay for. The gun is picky about which magazines it likes, and as with most things in life it prefers the more expensive ones.

Gun Review: TISAS ZIG M1911 A1 .45 ACP Pistol - The Truth ...

I seem to recall from an old Hanushek book that multicollinearity does not bias coefficients; it inflates their standard errors. These large standard errors make p-values too large. That is a problem when the p-values go above a threshold like .05, but otherwise, the inflated standard errors don't change the interpretation of the results.

When Can You Safely Ignore Multicollinearity ...

As a health educator working for a cancer program, I know all too well the guidelines for when one should get screened for various cancers. So, it was a no-brainer when I went to see my physician and let him know that I was having vague gastrointestinal issues and reminded him that my mother had colon cancer about 25 years ago.

Colorectal Cancer Screening Stories | CDC

Answer: Some are vague (e.g., not too many cigarettes), leading to abuse, and others are clear and easy to follow (e.g., no cigarettes at all). Some are too strict, and do more harm than good (anorexia). Others are too strict to be followed by the person in question and lead to cycles (bulimia) and to more and more elaborate rules.
